ABOUT OUR ELIXIRS

Elixirs are medicinal for your body, mind and soul. Created from organic or wildcrafted, consciously sourced herbs, several of the formulas we use were developed by Ojai's local herbalist and founder of Shaman Shack, Rehmania, while others are created by our in-house herbalists.

ABOUT OUR KOMBUCHA

Kombucha is an effervescent living health tonic that boosts your immune system with probiotics that aid digestion, promotes the free circulation of blood and lymph, adding essential nutrients to your diet. Jun is known as the champagne of kombuchas.
